In 1979, bestselling author V.C. Andrews introduced the world to the Foxworth family with Flowers in the Attic. This tragic story of lavish wealth, greed and the horrifying actions a grandmother, Olivia Foxworth, made to hide her daughter's children would play out in seven additional novels that became a pop culture phenomenon, later spawning numerous film adaptations.

Lifetime's four-part limited movie series Flowers in the Attic: The Origin (Saturdays in July) shares the heart-wrenching, twisted story of Olivia Winfield Foxworth. The saga is led by Jemima Rooper along with a star-studded cast that includes Max Irons (Condor), Kelsey Grammer (Frasier), Harry Hamlin (Mad Men), Paul Wesley (The Vampire Diaries), Kate Mulgrew (Orange Is the New Black) and Hannah Dodd (Harlots).

Olivia is a contemporary woman who thrived working alongside her beloved father (Hamlin), until she is unexpectedly wooed by the wealthy Malcolm Foxworth (Irons). After their marriage, she finds herself as the mistress of the lavish Foxworth Hall, where her fairy tale love turns into a horrific nightmare.

Rooper, who grew up in England, definitely had heard of the book series, but couldn't recall the details when she first read the project. "It was only when I started mentioning it to friends, and other parents at my son's school, that I realized there are a lot of people who were completely hooked on the books, and it was really part of their growing

up, and they were so excited that I was even auditioning and that there was this show being made about the origin story," Rooper tells us. "From my point of view, I'm almost relieved that I didn't know quite the power of the V.C. Andrews catalog because I think I would have been probably a lot more daunted than I already was."

Diving into her character was a journey, as her initial reaction to Olivia was that she was an awful woman. Once receiving the full script, she saw something different. "She's a strong young woman at the beginning of the story," Rooper tells. "And the intrigue of how does this person become that person — it's a dream come true for any actor [to play]. Her story is tragic as well."

While we start following Olivia as a young, vibrant woman, she eventually becomes the horrible grandmother to her famed grandchildren Cathy, Chris and twins Carrie and Corv.

"We can all be capable of things we never dreamed of, and there are quite a few points over the course of the four episodes where Olivia finds herself in certain situations and has to make a choice," she concludes. "And, it's not necessarily the choice that you would want to make, but at the time, it is the best of a bad bunch, it seems."

Ultimately, her character states it best in the beginning narration: "Some may have an idea of who I was – a wife, a mother, THE grandmother, a monster. I only ask that you withhold final judgment until you know the true story, and knowing the truth, judge me if you dare."

KELLY RIPA LOOKS TO CLOSE THE "GENERATION GAP."

Jimmy Kimmel is an executive producer of the new comedy quiz show *Generation Gap* (premiering Thursday on ABC) that finally debuts nearly three years after it was ordered. The game show groups family members of different generations who must work together to answer questions about each other's generation. There will be pop-culture trivia and challenges such as asking an 8-year-old to finish the famous catchphrase "Go ahead. Make my BLANK." Kelly Ripa hosts and coproduces the series with her husband, Mark Consuelos. "It's time to bridge the Generation Gap with kids and grandparents going head-to-head against other pairs to see who knows each other's generation best," Ripa said.

CRISTY LEE
Of HGTV's "Steal This
House" By Barb Oates
While her passion for the motorcycle

While her passion for the motorcycle industry is first and foremost (right now she only has three motorcycles inside of her actual house), home design and renovation are taking a close second for TV host and gearhead Cristy Lee. Filmed in her home state of Michigan, Lee's new show, HGTV's Steal

This House (premiering Saturday), helps frustrated home buyers rethink the market and a home's potential (even homes covered in cedar from floor to ceiling that most would run from). Here she weighs in on how she looks at the market.

- How are you getting homeowners to relook at what's available in this housing boom? When homeowners go to purchase a home, they're generally looking at the top of their budget. They're not finding the square footage that they need, the type of style and decor that they need, but there's nothing left in their budget to make those changes. I'm trying to get them to look at a home in a completely different frame of mind.
- 2. So how does renovation come into play here? I'm working with them to try and help them see a vision and completely change their frame of mind of home shopping. By looking at houses in a very different price tier, they can lower the initial cost of the home in their budget and allow for more money to renovate. I'm guiding them through that process and helping them make some great choices for a home that they haven't been able to find.
- Do you try to leave something memorable from the original house in your renovations? I do love when there's a part of the home that stays with the home. Sometimes that's a little bit easier if you have a '40s-era home with beautiful carpentry and woodwork everywhere no one wants to tear that down and paint over it. Or if you've got amazing original hardwood floors. Everyone wants to leave that as it is, and I do too. But sometimes when you have cedar on basically every flat surface in the entire house, it might not be exactly what everybody wants in their entire home. So it's a balance.
- What's your dream house look like? I'm that crazy person that would love to move every six months, go through another renovation, a fresh kitchen, a fresh decor. I'm that person. ... Obviously that's not extremely practical, but my dream home would definitely consist of something that feels like home. And to me, my house is extremely modest and understated. ... My home just needs to be cozy and welcoming and serene. And that's what's most important to me.
- **5.** And how many garage spaces? If I could have a house with the garage bigger than the actual house, I think that I would be OK with that; that wouldn't make me upset. I'm officially tapped out on garage space with two garages and a shed and storage space right now with cars and motorcycles. So you can never have enough garage space.

America Outdoors With Baratunde Thurston

8 pm on PBS

Series Premiere

This series follows outdoor enthusiast Baratunde Thurston on an exploration of America's diverse regions, to discover how those landscapes shape the way Americans work, play and interact with the natural world.

Supermarket Stakeout 8 pm, 11 pm on FOOD

In a new episode called *Parking at the Beach*, the competition heads to the coast, at least in spirit, as host Alex Guarnaschelli challenges the chefs to make tempting snacks and treats a beach visitor might find at a boardwalk eatery. Next, they cook up light and bright California coastal dishes, then the final two chefs make bon-

fire desserts.

The Secret of Skinwalker Ranch

8 pm on HISTORY

Astrophysicist Dr. Travis Taylor and his colleagues on the Skinwalker team undertake their most ambitious experiment yet at the Triangle in the new episode *Closer Encounters*. They have no idea what results they should expect, but although they're braced for just about anything, what appears in the sky leaves them all feeling shocked.

Little People, Big World

8 pm, 12 am on TLC

Amy and Matt continue to rebuild a friendship in unexpected ways in a new episode called *Break in the Matrix*. As a surprise move creates even more new family challenges, Matt makes a decision that may change things forever for the extended Roloff clan.

Goldschmidt once again raking for Cardinals

Quietly and without a lot of fanfare - as usual - Paul Goldschmidt is having a career year. And given his past achievements, that's saying something.

Indeed, the St. Louis Cardinals' six-time All-Star first baseman is among the National League leaders in many key offensive categories, which as of early June included first in batting average (.341), on-base percentage (.421) and OPS (1.023), second in RBI (47) and slugging percentage (.602) and fourth in runs scored (39)

And the four-time Gold Glover is again living up to his reputation as a sterling defender, vacuuming up ground balls, liners and errant throws with aplomb at what is known as "the other hot corner."

Not surprisingly, there has been a lot of MVP talk surrounding Goldschmidt and this season may be the 12year vet's best chance to bag that award. He came close as a member of the Arizona Diamondbacks in 2013 and 2015, when he finished second in the voting to Andrew McCutchen and Bryce Harper, respectively. And he's been in the top six in balloting every year since, save for 2014.

But the man known as Goldy isn't one to indulge in self-promotion or talking about himself, just going out, doing his job and helping the Cardinals win. Which given the fact they've been neck-and-neck with the Milwaukee Brewers for the top spot in the Central all season, speaks for itself.

Goldschmidt and the Cardinals can be seen in action Sunday, July 3, when they close out a three-game road series against the Philadelphia Phillies in a game airing on ESPN and ESPN2.

for expanding the MCU with much-needed diversity. The Disney+ series introduced one of Marvel's most likable characters to date: Pakistani American teen Kamala Khan. played by newcomer Iman Vellani. Vellani plays the fangirl-turned-superhero so perfectly, one would think she was born for the role.

We'll get to see their interdimensional siblings since they were transported to an alternative timeline where The Sparrow Academy was created instead of the by-now beloved Umbrella Academy. Be sure to look out for Larry David's daughter Cazzie David to pop up as a new character.

But first-look pics spoiled it-Nancy is plotting with the rest of the gang, pictured alive and well. Netflix couldn't wait a couple more weeks?

THE WEEK IN SOAPS

For Whom The Belle Tolls — "Days Of Our Lives" Star Dan Feuerriegel Talks EJ And Belle's Relationship

Dan Feuerriegel recently celebrated his one-year anniversary playing EJ DiMera on *Days of Our Lives*. The actor joined the show with much fanfare, as the popular EJ had been very missed during his absence. Also, Feuerriegel knew his predecessor in the role had been popular.

"It's been one hell of a journey," the Australian-born Feuerriegel tells TV Weekly. "I didn't look too much into the past but I did know that EJ was a very coveted role. All I could

do was do what I do and hope that people would accept it."

Safe to say, mission accomplished! Feuerriegel says he researched his predecessor's (James Scott) work on *Days* to help effect a smooth transition for the show's viewers. "I had a quick look at some scenes that James had done, visited a few fan sites and then, I let it be," Feuerriegel philosophizes. "I thought I can only be me." His research did give him the idea to play the regal EJ a bit more "posh," but otherwise, he wanted to discover dynamics on his own. Producers, writers and costars all gently offered words of advice in an effort to help.

Opinionated soap fans daily share their thoughts online about their favorite serials, and so posts about Feuerriegel were inevitable. Fortunately, the actor says that he benefitted from the show's advance taping schedule. He began shooting scenes a year ago in March, but they didn't begin airing till a few months later. So, when fans began commenting on his first days, the actor was secure in the knowledge he already had months of work completed. He felt potential critics would see him grow more confident in the role.

Viewers certainly saw EJ's humanity after he cut open a few veins to ex-love Nicole Walker (Arianne Zucker) when his mother Susan Banks (Stacy Haiduk) was hospitalized. "Those scenes were a break from the norm of the direction EJ was going in," Feuerriegel recalls. "[We saw] a more human, grounded element to the character. I like that kind of acting where I can just sit next to the person and talk."

More recently, EJ has formed a bond with his fearless attorney Belle Black (Martha Madison), who represented him after he was falsely accused of kidnapping his ex-wife Sami (Alison Sweeney), Belle's half sister.

Naturally, Belle was vulnerable after her nemesis Jan Spears (Heather Lindell) gave birth to a baby boy fathered by Belle's husband, Shawn (Brandon Beemer). In a vulnerable moment, EJ and Belle shared a kiss. "EJ needs to find a connection, and he's gravitating toward Belle," Feuerriegel says.

"There are some people you connect with chemistry-wise almost instantaneously," the actor muses, referring to Madison. "Martha and I clicked and got along [during EJ's trial]. She's lovely. I'd work with her any day of the week."

The Invention of the Year

The world's lightest and most

portable mobility device

Once in a lifetime, a product comes along that truly moves people. Introducing the future of battery-powered personal transportation . . . The Zinger.

Throughout the ages, there have been many important advances in mobility. Canes, walkers, rollators, and scooters were created to help people with mobility issues get around and retain their independence. Lately, however, there haven't been any new improvements to these existing products or developments in this field. Until now. Recently, an innovative design engineer who's developed one of the world's most popular products created a completely new breakthrough . . . a personal electric vehicle. It's called the *Zinger*, and there is nothing out there quite like it.

"What my wife especially loves is it gives her back feelings of safety and independence which has given a real boost to her confidence and happiness! Thank You!"

-Kent C., California

The first thing you'll notice about the **Zinger** is its unique look. It doesn't look like a scooter. Its sleek, lightweight yet durable frame is made with aircraft grade aluminum so it weighs only 47.2 lbs. It features one-touch folding and unfolding — when

folded it can be wheeled around like a suitcase

The Zinger folds to a mere 10 inches

and fits easily into a backseat or trunk. Then, there are the steering levers. They enable the *Zinger* to move forward, backward, turn on a dime and even pull right up to a table or desk. With its compact yet powerful motor it can go up to 6 miles an hour and its rechargeable battery can go up to 8 miles on a single charge. With its low center of gravity and inflatable tires it can handle rugged terrain and is virtually tipproof. Think about it, you can take your *Zinger* almost anywhere, so you don't have to let mobility issues rule your life.

Why take our word for it? Call now, and find out how you can get a *Zinger* of your very own.

Season Premiere

Elizabeth Banks returns for her fourth season as host of this ABC reboot of a vintage game show. The main tweak for this current primetime version is the addition of a bonus round that features the champion from the first rounds playing against the Whammy, an annoying animated critter that can rob the player of cash and prizes.

Old

7:55 pm on HBO Premiere

M. Night Shyamalan's 2021 thriller revolves around guests at a tropical resort who discover they can't escape their location despite the fact that they are aging rapidly on this secluded beach. The ensemble cast includes Gael Garcia Bernal, Rufus Sewell, Vicky Krieps, Nikki Amuka-Bird and Ken Leung.

Generation Gap

8 pm on ABC

Series Premiere

Kelly Ripa is host for this new comedy quiz show from megaproducer Mark Burnett (*Survivor*) and talk-show host Jimmy Kimmel. Each episode pairs teams of grandparents and grandkids, who are challenged to answer questions about pop culture shows, movies, music and personalities from each other's generations.

Good Trouble

9 pm on FREEFRM

In a new episode called What I Wouldn't Give for Love, a nervous Davia (Emma Hunton) finally summons enough courage to tell Dennis (Josh Pence) about her true feelings for him. HOROSCOPES BY YASMIN BOLAND

ARIES (March 21 - April 19) If you play your cards (or should we say play your stars right), you'll be amazed by the progress you can make financially. This isn't just about the next week, or next month - it's about the next two years. Slow and steady is key. Be open to changing the status quo.

TAURUS (April 20 - May 20) The celestial tide turns toward you, thanks to red hot Mars. Consider the goals you'd like to pursue that are just for you. It could be health and fitness related or maybe you're ready to sever ties from whatever is making you feel trapped. You need to feel free now.

GEMINI (May 21 - June 20) You could make significant financial progress now, as your planet Mercury enters your cash zone. This is a great omen for you. That said, avoid overstretching yourself (even if a seemingly amazing opportunity comes along). Allow your intuition to guide you. Only risk what you can afford to lose!

CANCER (June 21 - July 22) This could be the week you make a dream come true. That or it's a great week for making a new friend or having a great time with old friends. Go easy with any relationships (especially professional ones) that are troubled right now. Tensions could mount as the week progresses.

LEO (July 23 - Aug. 22) A biennial career and life path boost arrives thanks to decisive Mars moving through your career sector for the first time in two years. The question begs - what do you want and what are you willing to do to get it? One way or another, it's time to flex your ambitions.

VIRGO (Aug. 23 - Sept. 22) Your stars will remind you of the joy of friendship this week. We're not talking about random online friends, but those most special people who mean a lot to you, as well as important professional alliances. Make an effort to reach out and organize a catch-up. Make the time.

LIBRA (Sept. 23 - Oct. 22) Relationships are emphasized under the current skies. Not just your personal or romantic ones, but your professional pairings too. This week may remind you that who you know is as important as what you know. Any extra efforts you make to get out and network professionally will be worth it.

SCORPIO (Oct. 23 - Nov. 21) It's time to turn up the volume on relationships as your planet, Mars, fires through your partnership zone. Step out from the shadows, own your issues and take charge in that one situation that's got your attention. How can you get what you want unless you go after it?

SAGITTARIUS (Nov. 22 -Dec. 21) There could be some positive changes connected to cash this week. If you're aiming to change your work-related financial set-up, this is the week to make some waves. Think of yourself as a disruptor. If you're confused about cash, wait to get more info next week before you act.

CAPRICORN (Dec. 22 -

Jan. 19) Effective communication is often easier in theory than in practice, but this week, you'll get the chance to improve your connection with someone who matters. This might mean being Agony Aunt to someone else's woes, or it could be better communications with a partner or ex. A life turning point is coming.

AQUARIUS (Jan. 20 - Feb. 18) This week, the volume gets turned up in your home zone. You might feel motivated to tackle a DIY project or shake up some tired routines. Taking charge of family dynamics may also be required. Be prepared for plenty of action on the home front, either way. Changes ahoy!

PISCES (Feb. 19 - March 20) If you've been feeling less than yourself recently, then it may be time to return to some daily rituals and habits that support you. Catching up on reading, podcasts or doing more exercise or yoga are all options. Get your head out of the clouds and your feet on the ground.

ASK MATT

@TVGINIVIattRoush

Question: I just finished watching *Severance* on Apple TV+ and absolutely loved it – well worth the price of admission! Now I am wondering how you think it'll fare at the Emmys, and what damage it could cause to *Ozark* and *Succession*'s winning streak- I hope! It was a phenomenal debut with a fantastic cliffhanger. – *JWL*

Matt Roush: It used to be that first-season shows weren't slam-dunks at the Emmys, but with the expansion of slots echoing the glut of options in today's streaming universe, I'm fairly confident Severance will make the cut. It obviously deserves to, and during its initial run earlier this year there was a sense that it kept building buzz by the week. (It's always interesting to be reminded that audiences keep discovering streaming series at their own pace.) Toppling a juggernaut like HBO and Succession won't be easy, and one way to gauge Severance's chances will be to look at the full list of nominations to see how it fares in acting, writing, and directing categories. If a show is being acknowledged on all creative fronts, that constitutes a breakthrough. This year's nominations will be further complicated by the addition of the global phenomenon that was Squid Game, but I'm betting Severance will make a decent showing - and sometimes just being nominated is what really matters.
